

Support for the definition of Spanish Cooperation priorities and lines of action in fisheries and aquaculture sector in Senegal

Date: 2006-2009

Location: Senegal

Funding source: Spanish Agency of International Cooperation and Development

Companies Involved: Canaest, S.L.

Description of work

The project objective was to help to define the priorities and the lines of action of Spanish Cooperation in fisheries and aquaculture sector in Senegal and to provide guidelines to orientate the Spanish Agency of International Cooperation and Development intervention strategy in the sector. The final expected result was the elaboration of a document with the following contents.

- Fisheries and aquaculture sector description
- Institutional and legal framework
- Mains actors in fisheries and aquaculture sector
- Weaknesses and opportunities
- Formative needs
- Priority analyses
- Strategic opportunities of the Spanish cooperation,
- Conclusions and recommendations
